**Following in the Footsteps of the Buddha**

Buddhism influenced the temple builders of Asia throughout history and continues to inspire present-day devotees, even here in America. We will hear about the influence of Buddhism on Asian society throughout the centuries. We will explore Buddhist history, art, and temple and cave building in India, Nepal, Central Asia, Southeast Asia, and Indonesia. Today, many of these structures are still important pilgrimage sites for Buddhists and non-Buddhists alike. Our presenter, **Lama Sean Jones**, is director of the Karma Thegsum Choling Buddhist Temple in Cicero.
