## Dr. Nina Kraus and the Brainvolts Laboratory

Check it out: [www.brainvolts.northwestern.edu](http://www.brainvolts.northwestern.edu)

### The Sounds of Languages

As a biologist and amateur musician, Dr. Kraus thinks about sound, brain health and how it impacts our lives. Her research found that sound, for better (musicians, bilinguals) and for worse (concussion, hearing loss, noise) shape how our brain makes sense of the sounds we hear regardless of the language. Her book *Of Sound Mind -How our Brain Constructs a Meaningful Sonic World*, was written for the intellectually curious.
